TO SUBSCRIBERS.

No paper will be forwarded from this office unless the subscription is paid in advance. All papers discontinued when the subscription expires. The rule will be strictly enforced.

CORRESPONDENCE.

Our friends everywhere, who may at any time have knowledge of facts of local importance—in clients, accidents, mining news, doings of public meetings, improvements, curiosities, etc.—would confer a favor upon us and our readers generally by sending notice of the same to this office. Give us facts in any shape, and we will take care of them.

THE CENTRAL PACIFIC RAILROAD.—The

Reese River Reveille of the 2d inst. has

the following sensible remarks on the

rail-road question:

A rail-road entering the State would

be a benefit to all, for which it is in-

tended, as it is a very narrow policy that

would put any obstacle in the way of so

great a public benefit because it cannot

pass the door of each individual. That

a railroad requires a bonus of so great

an amount as asked by the Latrobe Com-

pany, when another bids fair to be soon

completed, is a very good evidence that

but one road is needed. If there is busi-

ness for two roads, then the begging

for so great a bonus shows as greedy a

disposition and equal disregard

of public rights on the part of

the Latrobe Company as has ever

been charged against the Central

Pacific. This last named company have

the prestige of name, connection with

other roads, Government grants, right

of way, and everything that insures

success. It is the "upper dog in the

fight;" therefore we confide in its win-

ning; and as it is the only one that

promises to be completed in any reason-

able time, we think it is the duty of the

State to favor it.

A TUGH STORY.—A few nights since,

after several stories in regard to the

curious freaks of lightning had been told

a fellow who had listened with interest

to the stories, straightened up and de-

clined himself as follows: "Gentle-

men, when I lived in Missouri, I saw

some tall old thunder-storms. I remem-

ber once when me and a lot of fellows

were sitting in our cabin, there came

one, and all of a sudden we heard a

crash which made us think the sky was

coming down on us. We ran to the

door, and there was six big trees cut off

close to the ground, just as if a cross-cut

saw had done it. There was more cut

high up, and so on till a hundred yards

from us the tip-tops of the trees was

cut off. Where the thunderbolt went to,

I can't tell, but that was the biggest

storm I ever saw." Some one present

ventured to ask whether the trees "were

not split into shingles?" The fellow

construed this as questioning the truth

of his statement, and protested that "ev-

ery word of it was as true as Gospel."

A SERMON.—Without the least cere-

mony, friendly hearers, I drop among

you. You need wetting with the blis-

tering blackstrap of every day gospel,

and it is my duty to give it to you—

Woe is me if I don't give you the in-

corrigible particular fits. I have a call

to preach to you. My duty is as plain

as your incorrigible wickedness. My heart

yearns over you as a shingle would

yearn over the tender parts of a vicious

school boy. Like a lean turkey in grass-

hepper time, I am bound to pursue you

in every hiding place, and drag your in-

iquities to light. As terrible as a fish-

hawk upon a lazy sucker in shoal water

will be my swoop; but when I see the

tear of repentance gleaming upon the

cheek, as mild as a mother to her babe

will I smile again, and pour balm as

grateful as warm tallow upon a blister,

in your wounded hearts. You will learn

to love me then, and I shall have cause

to remember your granaries and your

pork barrels gratefully.

CORRECT INFORMATION.—The San Fran-

cisco Bulletin informs its readers that

Brigham Young was the Territorial

Governor of Utah, and at the same time

ecclesiastical and political head of Mor-

mondom. People generally understand

that James D. Doty is Governor, and

that Brigham Young only plays Gov-

ernor over the imaginary State of Des-

eret. The Bulletin often makes sad

blunders when speaking of the internal

affairs of the country, even of its own

State; witness its attempted ridicule of

the petroleum discoveries of the lower

coast. It reminds us of a very intelli-

gent Englishman, a "gentleman" in his

own country and a resident of California

for many years, who once made the in-

quiry: "Which is the largest town,

Philadelphia or Pennsylvania?" Reveille.

The biggest conflagration on record is

that in Japan recently, when Miaco was

burned, and the fire raged two entire

days, laying waste nearly 1,000 blocks

or squares, destroying 78,000 houses

and temples, and 3,700 warehouses.

About five-sixths of the city was in ash-

es, and half a million of people were

made homeless.

The ships of the United States Navy

during the past four years have cost

\$280,000,000.

On the 14th of February of the follow-

ing year Mary received a similar epistle

from Sant, breathing intense love and

devotion; and so on each succeeding

14th of February until 1861, when he

returned and made the lovely, faithful

girl his wife. Up to that time Mary

QUINCY.

SATURDAY, FEBRUARY 25, 1865.

LAND, HO!

The telegraph is again in operation, and from the full reports we glean the confirmation of loyal hopes. The national column moves on with resistless might. Mobile and Charleston and Wilmington fly the emblem of our nationality. "Old Glory" waves triumphantly where the first rebellious gun was fired. Sherman has completely isolated Richmond from communication with the Gulf States. No more help to either of those sections from the other hereafter, and the groans of the Richmond rebels come to the ear, laden with fearful forebodings of the swift doom which awaits traitors and their great Confederacy. Davis adopts a ruse to counteract the growing peace policy in the South. He sends Stephens on a mission to the Federal authorities, and gets the only reply they ever will get—unconditional submission, emancipation and reconstruction, and they have probably learned this time, that our Government will not treat for peace with Davis, and the people of the South will soon learn the same fact.

The old ship of state begins to ride in smoother water; her cordage and spars broken through the fierceness of the storm, will soon be replaced by stouter cord. This rebellion has taught us more truths than could have been taught by centuries of quiet. It has exemplified the fact that our old hull is oak, and with reasonable care, imperishable.

The news is received with wild joy by some Union men; by others with the calmness of certainty in the eventual triumph of our arms, and while all loyal Americans rejoice in the speedy promise of downfall to the wicked rebellion, those who have pinned their faith on the creed of "impossibility in subjugating the South," feel around for some easy place to fall; their long faces betoken the length of their mistake, and our prophecy will yet come true that in a very few years there will be none so poor as to admit that he could have been so recreant as to oppose this war for our national unity and for universal justice.

We feel only pity for those who scorn to rejoice over rebel defeats. They are hide-bound to a party which has no more vitality than a fossil of the period of the old red sand-stone, and they are of no further use than to mark the progress of political history. Some of them are too far committed to ever outlive the stain; others will quietly join in the current setting so resistlessly towards freedom and Union, and will, one day, so far overcome their present mistake, as to say that the soldiers of this war were the greatest the world ever saw, and that those who opposed the war were laboring under a very grave mistake. The dictum of their leaders will soon have lost its force. Time has exploded the five to one theory, and time will soon explode the false theory that it is impossible to subjugate. Rebels must pass under the yoke, and their friends and sympathizers in the North must reach yet a vastly lower depth of humiliation than they now occupy.

The situation, (military) at this time seems like the perfect fitting of each cog in the machine. The concentration of the rebels in the nest at Richmond, whence nothing can save them short of a miracle, and miracles are not very frequent in our day, shut out as they soon will be from foreign help, cut off from communication with the granary in the cotton States. They must either surrender unconditionally to our troops, or else fight an overwhelming force on ground of our own choosing. They are near their last ditch, and it is safe to assert that some of the most crafty of the leaders will leap that ditch and make a hasty joining to the new kingdom where Gwin rules the roost.

The Rebellion grows old, small and feeble. It is old through internal passion and wickedness more than age, and the page of history will soon be stamped with its final and crushing subjugation, for which, thank God.

NEW PAPER.—The California Rural Home Journal, is the name of a semi-monthly paper just started in San Francisco, the first number of which we received by the last mail. As its name indicates, the Journal will be devoted to the agricultural interests of the State. It is a handsome eight-page paper, and filled with choice reading matter. T. Hart Hyatt & Co. are the publishers. Terms of subscription, \$3 00 per year.

FRANK O'BRYEN was mustered into the service last Saturday as Quartermaster of the Eighth Regiment.

ROADS.

We have recently visited the mining section known as Genesee Valley, and our observation there of the immense deposits of mineral wealth have confirmed us in the belief that Plumas county contains more of the precious metals than any other county in the State, and that it will one day rival the far-famed Storey county, of the State of Nevada.

Heretofore our only export has been gold dust, which can be transported over poor roads, but now we may begin to calculate on the shipping of immense quantities of copper either in ore or smelted, which will demand a good road. Such a road is absolutely becoming an absolute necessity for our county. We must have one, let the cost be what it will. The short-sighted policy or apathy of our citizens must give way to the throbbing healthy activity which always accompanies a prosperous community.

While we have been sleeping and dreaming over our natural advantages, other sections of the State have made vast strides toward rapid and safe communication with tide-water. They have reaped and are now reaping the benefit of their enterprise, while we, in Plumas, with a knowledge amounting to a certainty of the vastness of our mineral wealth, with the certainty that the only route through the Sierras, below the level of deep snow is within our borders, have dozed away the years in a happy-go-lucky state, until we awaken, and find our sister counties of the mountains have outstripped us in the race. That the wealth is there, all admit that it will make us one day the richest mining county in the State, but few deny, and all realize that we have been kept back and retarded on the march, by the want of good roads, with the outside world.

We need capital to develop our resources. We need heavy machinery to reduce the ores. The one will not venture into an unexplored region, nor be followed by the other without a good means of transit. To secure both we must make a move, for he is foolishly blind who thinks gold will run into his mouth by the mere opening of his jaws. We must work, and work in the right direction, too, else we shall always be what we always have been.

We do not, in this article propose to designate any route on which it would, in our judgment be best to locate a road, nor to call attention to the immense travel to Nevada, which would as certainly seek this route as that water would find its level, nor yet of that greater enterprise looming behind a railroad, which will eventually seek a passage from the East to the ocean below the line of deep snows, but we intend simply to call the attention of our readers to the necessity of agitating the absolute need of building good roads by which a certain and speedy transit for goods and machinery, may be effected. Our roads at this time are unfit for heavy travel, even in the summer, and are entirely impassable in winter. They have performed a good service in their day, but we need a new road, one that will be open the year through, for the accommodation of the wants of our citizens.

Freightage stops when the first snow flies in the fall, and thence until spring opens, the snows of the hills form a wall as strong and adamant, and the difference in the cost to the consumer in this county alone, within two seasons build a road worth \$200,000.

THE S. F. BULLETIN.—We always had the impression that the Bulletin was about as mean as a newspaper could be, and if the Appeal and Flag tell the truth we were correct in our belief. We have yet to see the first complimentary notice the Bulletin ever received from any paper (except copperhead) published in the State. It gets nearly all of its items second-hand. Still it claims to be an enterprising paper. Bah!

WRONG.—The Nevada Gazette publishes an article last week, in regard to the next U. S. Senator from this State, and in the article made a very uncomplimentary mention of General Bidwell, the representative elect from this District. The Gazette ought to withhold such comments, until it is sure that Mr. Bidwell is deserving of them.

A REQUEST.—We would rather the S. F. Dem. Press would give no credit for articles copied from this paper, than to have it copy articles, and give the Marysville Express credit for them. See article headed "From Arizona," in the Press of the 11th inst.

ERRORS.—Our "typos" made several errors of omission and commission in our article of last week headed "correction." The correction itself needs correcting, but it would be a useless task to undertake it now.

CAPT. NOBLE, from Fort Babbitt, started out a detachment in pursuit of Mason and Henry, the murderers, with orders to follow and capture them if it takes all the Spring and Summer to do it.

CORRESPONDENCE.

SNAKE LAKE, Feb. 1864.

EDITOR UNION:—It behooves us, as residents of a mining county, and who feel interested in its development, to elucidate a little on mining, and its benefits, when practically and scientifically followed. According to the history of Moses, there were six metals known in the days of the Midianites; and according to Pliny, the Greeks and Romans were great workers in gold, silver, and other metals. The celebrated Swedish copper mine, Falun, and others, was worked in the tenth century, at a great profit to the Government; and in 1240, copper and tin was extensively worked in the county of Cornwall; and the descendants of the same races, 600 years later, are away out here on the shores of the Pacific—making discoveries in gold, silver, copper, tin, and a great many other metals, too numerous to mention at present. Truly we are a progressive people. What can we say in regard to the geographical situation of our county? As a mining district, we cannot say that we have been a prospecting community, in the broadest sense of the word, but we have, in our midst, rich gold and copper deposits, undeveloped, for lack of perseverance, &c. It has been argued of late, by a great many speculators, that mining is a very precarious business for capitalists to engage in. True, its chances of success are many and varied. The majority of the failures in mining are from a lack of skill, or want of a greater practical knowledge in the business. The inexperienced mining speculating mania is about through with for a little while; there is another class of men, that has taken hold of the mining interest in our county. The coming Summer will develop the riches of Round, Indian and Genesee Valleys. The whistling echo, and clattering sound of the stamping mills, will be heard far and wide, through our fertile valleys. We shall likewise have in successful operation, if I am not greatly mistaken, extensive copper ore smelting works in Genesee. Parties interested in railroad stock had better be looking out after one of the several grades leading into our valleys from the lower country—thence on to Idaho, &c.

Yours, D. W. HAMBLEY.

[NOTE.—Mr. H. has promised us that he will write a series of letters for publication upon the subjects mentioned in the above letter, and we should be pleased to publish letters from other of our citizens, upon the same, and other subjects. That this county needs a road to the lower valleys, (as referred to in Mr. Hambley's letter) which can be kept open the whole year, no one will deny; but, in regard to the locality and manner of building such a road, there is a great difference of opinion.—Ed.]

WASTE IN WORKING GOLD ORES.—We are informed by a gentleman connected with one of the most extensive metallurgical works in the State, that within a few days past a quantity of ore from a mine in Mariposa county was sent to his establishment to be operated on. The party sending it stated that there was a large vein of the ore, but it could not be made to yield more than \$14 per ton by their process of working. This same ore operated on at this establishment, by competent workmen, was found to yield upwards of \$1,000 per ton. This affords a clear illustration of the enormous waste that exists in working gold ores.—[Flag.]

TENNESSEE.—The additional article of the State Constitution, by which the Tennessee Convention abolishes slavery, reads as follows:

Sec. 1. Slavery and involuntary servitude, except for the punishment of crime, whereof the party shall have been duly convicted, are hereby forever abolished and prohibited.

Sec. 2. The Legislature shall make no law recognizing the right of property in man.

From a private letter, we understand the Government has just purchased a new steam propeller cutter, says the Alta, on the stocks, building at Baltimore. She is to be finished immediately for a gunboat, heavily armed, and sent to the port of San Francisco. She is represented as being a fine craft, of about 600 tons burden, and will be put into the revenue service on arrival here.

As It Should Be.—The Printers' Union at St. Louis met last week, and voted that the Union was dead, and every man must look out for himself. Printers' Unions are among the by-gones now. They have failed entirely in every instance in which they have attempted to rule their employers.

N. Y. CORRESPONDENCE.—We are in receipt of a communication from an old friend in New York city which we shall publish next week. We are promised a continuation from the same correspondent.

DUEL.—C. Hall and Oscar Warwick fought a duel near Grass Valley on Friday with Deringer pistols. Three shots were exchanged without injury to either party, and then they settled their quarrel amicably. A woman was the cause.

In describing the difference between aristocracy and democracy, it is wittily said of Cincinnati: The democracy are those who kill hogs for a living; the aristocracy are those whose fathers killed hogs.

"Why do you set your cup of coffee on the chair, Mr. Jones?" said a worthy landlady one morning at breakfast. "It is so very weak, m'am," said Jones, "I thought I would let it rest."

Special Notices.

And in accordance with law and an order of the Board of Trustees, made on the 21st day of January, 1865, so many shares of each parcel of stock as may be necessary, will be sold at the office of the Company in Chico, Butte county, California, on the 10th day of March, 1865, at 3 o'clock, P. M. of said day, to pay said delinquent assessment thereon, together with costs of advertising and expenses of sale.

R. H. ALLEN, Sec'y.
Office—J. Bidwell's Brick Store, Chico, Butte County, California. 18-td

Dissolution.

THE CO-PARTNERSHIP heretofore existing between W. Myers and the undersigned, was dissolved on the 1st of December, 1864. I hereby give notice that I will not be responsible for any debts contracted by the said W. Myers, after that date.

PETER ANDERSON,
Sierra Valley, Feb'y 8th, 1865. 16-4w

DR. HONETTER'S STOMACH BITTERS SHOULD BE IN THE POSSESSION OF EVERYBODY IN THE MINING REGION, AS A PREVENTIVE OF VARIOUS DANGEROUS DISEASES TO WHICH THE GOLD SEEKER IS LIABLE. IT HAS NO SUPERIOR. WHILE IT IS QUITE PALATABLE EVEN AS A BEVERAGE, IT IS SPEEDY AND POWERFUL IN ITS EFFECTS UPON THE SYSTEM. IN ALL CASES OF DIARRHŒA, DYSPEPSIA, AND THE PREVAILING FEVERS CONSEQUENT UPON EXPOSURE, THE BITTERS WILL BE FOUND INVALUABLE AS A CORRECTIVE. NO MAN SHOULD ENTER UPON THE EXPOSED CAMP LIFE OF A MINER WITHOUT BEING PROVIDED WITH HONETTER'S PREVENTIVE OF STOMACH DISEASE, NOR SHOULD ANY OPTICIAN WHO ARE NOW ENGAGED IN THE OCCUPATION FAIL TO HAVE RECOURSE TO THE BITTERS. SOLD BY ALL DRUGGISTS AND DEALERS EVERYWHERE.

HONETTER, SMITH & DEAN,
B-15-1m San Francisco.

Crescent Extension Quartz Mining Company, Indian Valley, Plumas County, California.—WHEREAS, Stockholders representing more than two thirds of the Capital Stock of said mining Company, have expressed their desire for the removal of the office or principal place of business of said Company, from Indian Valley, Plumas county, of the State of California, to the city and county of San Francisco, and have given their consent in writing for such removal as by statute required. Notice is hereby given to all parties interested that in accordance with the act of the Legislature approved February 5th, 1864, the Board of Trustees, of said Company will after the publication of this notice for thirty days from the first day of publication take the proper steps to legalize the removal of the office or principal place of business of said Company.

SAMUEL J. HEGEMAN,
Secretary.

October, '64. 17-td

Summons.
STATE OF CALIFORNIA,
County of Plumas.

In the District Court of the Second Judicial District.
Hough & Bro., vs. J. A. Whitmore.

Action brought in the District Court of the Second Judicial of the State of California, in and for the county of Plumas, and the complaint filed in said county of Plumas, in the office of the Clerk of said District Court.

The People of the State of California send greeting to J. A. WHITMORE, Defendant.

YOU ARE HEREBY SUMMONED TO APPEAR in action brought against you by the above named Plaintiff, in the District Court of the Second Judicial District of the State of California, in and for the county of Plumas, and to answer the complaint filed therein, (a copy of which accompanies this summons) within ten days, (exclusive of the day of service) after the service on you of this summons—if served within this county; or, if served out of this county, but within the Judicial District, within twenty days; or if served out of the said District, then within forty days—on judgment will be taken against you according to the prayer of said complaint.

Given under my hand and the seal of the District Court of the Second Judicial District of the State of California, this 24th day of March, in the year of our Lord One Thousand, Eight Hundred and Sixty-four.

W. W. KELLOGG, Clerk.

LILLIE'S LOCK OPENED

In One Minute.

New York, September 2, 1864.

F. TILMAN, Esq., 318 Battery street, Bet Commercial and Clay, San Francisco.

DEAR SIR: WE NOTICE AN ADVERTISEMENT in your daily papers respecting the "security" of the "Lillie" lock. We are aware that you well understand this lock, and, of course, will not allow yourself to be annoyed by such representations. We have just sent for one of our men from the factory, and he in our presence, opened one of Lillie's best safe locks, after it had been locked and the combination turned on.

By One Blow of the Hammer

Against the knob on the outside, and thereby breaking the cast iron bolt inside.

The whole time occupied in opening the lock was about ONE MINUTE. We send you this lock that your friends may not be deceived by false representations, etc.

Respectfully, etc., A. E. TILTON, WM. MCFARLAND.

NO PRACTICAL

Lock Picker or Thimble Rigger

Required to

OPERATE THE SAID LILLIE LOCK.

Any parties desirous of seeing the above mentioned lock, its insecurity, and easy mode of opening the same, can call at

318 Battery Street, San Francisco.

On the 18th of February last, a fire occurred in our block which destroyed a number of buildings, and our own with the rest. We trusted our books, papers and all in the safe. After the fire, the so called "safe" was taken from the ruins, and on opening it we found that

Everything had been Destroyed.

We send you the safe, with what is left of the papers, and you will see that not one of them is legible or strong enough to sustain its own weight. Having the curiosity to know how our neighbors fared in this fire, we noticed Messrs. McKenrie & Hardy just opening their safe, (TILTON & MCFARLAND'S make) and its contents were found to be

So Called "Fire Proof Safes."

LOCAL ITEMS.

CRESSENT MILLS AND INDIAN VALLEY.—To a new correspondent, who signs himself "A Cop perhead," we are indebted for the following communication:

As I suppose you are not often the recipient of a letter from an original Copperhead, I propose giving you a few items concerning this part of the county. [Always glad to get news. It don't make a "dip of bitterness" with us, whether it comes from a "Cop" or not—let's hear from you often.—Ed.] The noise of the Crescent Mills is to be continually heard, stopping only on Saturdays; and then only long enough to clean out the amalgam, which averages from \$3,000 to \$5,000 per week. The Company has about eighty men employed in the mine, which still appears to be rich, and very extensive. There has been several ledges discovered in this vicinity this winter—most of which are likely to prove good. A ledge, very recently discovered near the Crescent, has created considerable excitement. Companies have been formed, and claims located, assessments have been levied for the purpose of prospecting, which is now going on, in the way of sinking a shaft. This ledge is known as the Eureka. There has also been a company prospecting the Premium ledge, which is situated on the South side of Indian Valley. This is also a rich ledge, upon which (I understand) the company is to erect a mill the coming Spring. I also understand there is to be a mill erected on the Gephart ledge, on the head of Wolf Creek, this season. This ledge, discovered by Mr. Gephart, some six or eight months ago, produces some of the finest specimens I ever saw. And in fact all of the quartz miners are doing well. And in fact all of the quartz miners are doing well. And in fact all of the quartz miners are doing well.

COURTS.—The regular term of our County Court commences on the first Monday of next month. There are no cases upon the County Court calendar for trial at that time. Probate Court also meets on the first Monday in March. **EXHAUSTED.**—We are informed that, with the usual stock of goods for winter, the merchants on the East Branch, "laid in" about one hundred and fifty cases of liquor, (some good, some bad, and some "worse") and that the supply is nearly exhausted, in fact they have had to purchase several "cargoes" from merchants in this section of country. Our informant don't pretend to say that it has all been drunk by the citizens that section. Not at all—it may have been used for various purposes, and not a drop of it been drunk and then, again, it "mounts".

SAWPI FLAT AND VICINITY.—Our correspondent, "Occasional," sends us the following interesting communication:

Mining items are scarce. The snow and cold weather have suspended the operations of the two or three piling companies at Richmond Hill, and at Sawpi Flat no one has attempted to wash up. The Comet Company has raised a shaft of fifty feet at the end of their sixteen hundred feet of tunnel, and still find no gravel. This company has run by the front channel, some seven or eight hundred feet, without even so much as stopping to prospect a pan of dirt. The Comet remains one of the old story of the green Irishman in New York, who, you remember, would not stop to pick up a six-pence lying on the sidewalk, but traveled on, sagely remarking, "Wait a bit now, till I come up to a pile of shillings." The Eagle Company has eleven hundred feet of a tunnel that has not even a color of bed rock. Only for the fact that the Franklin tunnel has pointed out the way the "Eagle Bird" should fly, the "Greys" would be looking very blue this fine evening. The New York is progressing finely on soft rock. The Buckeye still flourishes in hard blasting rock. This company, with all their long years of discouragements, still keeps up a bold front, and is marching on in the great high road to wealth. The Monitor Incline, I am happy to say, is on the bed rock. A cave at the foot of the incline has set the company back for a few days, and prevented prospecting any of the gravel as yet. A large petrified tree, in one of the breasts in the Franklin claims, at Sawpi, is attracting a good deal of attention. I have not had time to go and see the tree, but I can say, on authority of Jackson Erie, and several of the hands, working in the Franklin and of visitors too numerous to name, that this old entombed mammoth tree is at least fifteen feet in diameter. But more of the tree another time. The old Union Company, at Washington Hill, once upon a time so famous, is making preparations to again commence operations, after a "temporary suspension" of some six or eight years' duration. The ground last worked in these claims, paid regularly \$5 to the car load, until the water drove the company out. Now, the American tunnel will soon drain the Union, and we may expect, ere long, to hear good tidings from the old Union, at Washington Hill.

"Snow shoes are in great demand of late, and 'fast dingo' is king. The long looked for Union Valley race came off yesterday. Old Boreas, the mischievous old rascal, had been making sport of our race course, and had left it almost impassable to our champions. The Jockey Club put up a breast-pit, valued at \$30, and only ten men seemed to want the thing, in the least. They ran a little scrub race near the foot of the hill, that did not amount to much. James McQuillan, of Newark, I think, carried off the prize.

[We hope that "Occasional" will write us occasionally,—say about once a week.—Ed.]

FROZES.—Some time since, a citizen of Indian Valley, named Steinberger, on returning from a trip to Washoe, lost his way, and had to lay out all of one night. He was found the next morning by some of the citizens of Beckworth's Valley. One of his feet was badly frozen, and he was nearly "gone in." He was kindly cared for by the family of Mr. Jones, in Beckworth's Valley, and has been recovered. He had a narrow escape from freezing to death.

TUNNEL.—The owners of the Treadway ledge, in Sierra Valley, are at work, running a tunnel to strike their ledge at the depth of three hundred feet. The rock from this ledge prospects and assays as high as \$400 per ton. The ledge is about thirty feet in width. The tunnel will be completed in a short time.

Too Cold.—Only a few claims on Marion Flat, Dutch Hill, and in that vicinity, are being worked at present. The miners are anxiously waiting for warmer weather and more water.

SALE.—See notice of sale of delinquent shares in the Superior Copper Company, published elsewhere.

THANKS.—To Shannon, M. C., for Pub. Doc't.

ERROR.—In our last issue, the "types" made us say that the snow, in this valley, was two feet deep. It should have been one foot.

THANKS.—To Mr. Roby, of the Plumas House, for a bottle, labeled "Little Joker," which contained something decidedly good.

THE 22ND BALL.—The Ball given at the Vernon House, on the 22d inst., was well attended and passed off pleasantly. So say every one that was present.

D-E-L-E.—We need not tell the citizens of Quincy that the town has been "awful dull" during the past two weeks, for they know it; but for the benefit of outsiders, we "make a note out."

Too Late.—The "package," forwarded to us by a friend on the East Branch, arrived too late to have a notice of it appear in our last week's paper.

LOCATED.—Mat Lynch, late of this county, and who runs the Plumas Standard until that concern "busted," has assumed the editorial charge of the Democrat, published at Ukiah, Mendocino county.

DANCING SCHOOL.—A Dancing School was opened at the Plumas House, on Thursday evening last, under the tutorage of Mr. J. A. Tout. A course of seven lessons will be given. School meets every Thursday night.

ACCIDENT.—On Thursday evening of last week, as Mr. Frank Kane, of Nelson Creek, was crossing a cat, upon a log, his foot slipped and he fell about twenty feet to the bottom of the cat, receiving severe injuries.

COURTS.—The regular term of our County Court commences on the first Monday of next month. There are no cases upon the County Court calendar for trial at that time. Probate Court also meets on the first Monday in March.

EXHAUSTED.—We are informed that, with the usual stock of goods for winter, the merchants on the East Branch, "laid in" about one hundred and fifty cases of liquor, (some good, some bad, and some "worse") and that the supply is nearly exhausted, in fact they have had to purchase several "cargoes" from merchants in this section of country. Our informant don't pretend to say that it has all been drunk by the citizens that section. Not at all—it may have been used for various purposes, and not a drop of it been drunk and then, again, it "mounts".

PRETTY GOOD.—A few days since, a Chinaman who understands English very well, went into a store for the purpose of purchasing some matches. He asked for two bits' worth. The proprietor of the store counted out a number of bunches, and handed them to the Chinaman. John was surprised at the small number he was to receive, and to convince him of the cause, the merchant showed him the revenue stamps upon the matches, and tried to explain the tax to him. John stood for a moment, and then replied: "What for more money? What's the matter in New York, now? Too muchey fight; no good. Chinamen all the time pay too muchey tax. Bime by, all the same as 50, hey?"

GREENVILLE AND VICINITY.—The Indian Valley quartz mill has been idle for past six weeks. The owners are making an addition of ten stamps to their mill. They will resume operations about the middle of March, as a twenty stamp mill. The McCallan mine, now owned by H. C. Bidwell and others, is yielding larger than ever before, and can now be ranked with the best paying mines in this State. It is paying regular monthly dividends to the owners. One-half of this mine was recently purchased by the present owners for \$15,000 cash. The yield of this mine, for the last ten days, has been near \$1,000 per day. This, for the number of stamps employed, is far ahead of any mine in the county. Messrs. B. & Co. contemplate the erection of a large steam mill upon the mine in the Spring. Messrs. Wilds Bros. have sold their ledge, for \$14,000 cash, to Messrs. Howell & Co., of San Francisco. Mr. H. is on the ground, making extensive improvement to open and work the mine. The Shortell ground, on the same ledge, and adjoining this claim, was purchased last week by Bidwell & McCallan, who intend developing it at once. Mr. B. also purchased the Eureka and Excelsior ledges, in Cherokee District, and is working rock from them in the Dixie mill, which is paying well. Four new buildings are being erected in Greenville, and business is lively for this time of the year. The Chico road below, is open to Big Meadows for sleighs, and it is the intention of the company to keep it open the balance of the season. We are having fine sleighing at this place.

[The above interesting letter had the following postscript: "You can select any items that will be interesting to your readers." We have done so, by publishing the letter in full. Come again, and often.—You suit us.—Ed.]

ALL RIGHT.—The Cal. Clipper won't exchange with this paper. We are satisfied; for we don't believe the Clipper is much of a sporting paper, any way. If we should see a copy of the paper, we might change our opinion.

CAL. FARMER.—Col Warren and Lisle Lester are now associated in the editorial control of the California Farmer newspaper. Leslie's Pacific Monthly is dead.

GOOD NEWS.—Charleston, S. C., was captured by the forces under Sherman, on the 18th inst. The "Cops" don't believe it—of course not.

GEN. McCLELLAN sailed for Europe on the steamer China in February, having declined the offer of a private vessel from his friends.

At Hungarian Hill, Feb. 19, 1865, the wife of C. A. Hersey, of a daughter.

Medical Advice.—Without intending to particularize any from among the many distinguished physicians of this city, we cannot avoid referring to the successful treatment of cases which have come under our observation, by Dr. W. K. Doherty, No. 521 Sacramento street, San Francisco, and the gratitude felt towards that gentleman by those who a short time ago, were tottering to the grave, and are now in the enjoyment of health and happiness, freed alike from their poisonous affections, and the equally deadly effects of vile drugs. That their gratitude was sincere, we have not the slightest doubt, as was also their regret for having wasted so much of their time and money on some of the old school physicians, without a particle of benefit resulting therefrom. We do not think we could better consult the public good than by advising all who are afflicted to give Dr. Doherty a call.—San Francisco News.

WATT'S NERVOUS ANTIDOTE!!
A Certificate of Cure that Every One Should Read!!

SAN FRANCISCO, AUGUST 1st, 1864.
MESSRS. CRANE & BRIGHAM, DRUGGISTS—Cor. of Clay and Front Streets.

GENTLEMEN:—I notice an advertisement in the newspapers, that you are the Agents for WATT'S NERVOUS ANTIDOTE, and as I am suffering from many of the symptoms which are mentioned in the advertisement, I thought it duty I owed to suffering humanity, to make a statement of my case.

Some eight years since, while working upon a Railroad, I strained my back severely, in attempting to lift a car wheel, being in a promise perspiration at the time, and being compelled to go home without a coat, I took a severe cold, which eventually brought on the Rheumatism, which kept me confined to the house a large portion of the time for several years. I consulted most of the local physicians in Sacramento, and in this city, visited the Warm Springs at Alameda, tried the various compounds that are advertised as cures for this terrible disease, but all to no purpose. My complaint, instead of getting better, grew worse, my left leg became partially paralyzed, the pain in the back and chest became so intense, that I often wished myself dead. I could not sleep more than two hours of a night, my appetite failed me, and I grew emaciated day after day, until finally, I made up my mind that my troubles would soon be over. While walking down Clay Street one day, in 1862, I met a gentleman with whom I was formerly acquainted. He enquired the nature of my disease, and upon being informed he stated that he had several years before been similarly afflicted in Washington, and that he had cured himself by the use of WATT'S NERVOUS ANTIDOTE. This was the first time that I had heard of the medicine, and I determined to give it a trial. I procured a half dozen bottles, and before I had used two of them I could sleep all night, my appetite had improved, and I could get about the house. Encouraged by the apparent improvement, I determined to persevere in the use of it, as it was my only hope. I did so, and at intervals of four or five years, I found myself cured. I HAVE NOT HAD AN ATTACK OF RHEUMATISM FOR SIX MONTHS. My back is as strong and as well as ever, my leg is as good as new, my appetite altogether too good for my pocket, and I am physically as strong as I was ten years ago, and feel myself able to whip any man of my size and age in the city.

Noting that this plain statement of my sufferings and ultimate cure will allay the eyes of some one similarly afflicted that he may be benefited by my experience.

I am, Gentlemen, Your most obed't.

NOTE.—The gentlemen who wrote the above card does not wish his name to appear in print, but it will be given to those who wish to see him personally.

WATT'S NERVOUS ANTIDOTE is for sale, Wholesale, by CRANE & BRIGHAM, Cor. of Clay and Front Streets, San Francisco, and by respectable Druggists everywhere. 43-3m

LIVERY STABLE,
Quincy,
JOHN MOORE, Proprietor.

HOWARD
Private Medical INSTITUTE.

No. 537, Sacramento st., San Francisco.
Consultation, by Letter or otherwise, Free.

ESTABLISHED FOR THE CURE OF DIS-
eases of a private nature, such as Gonorrhea, Syphilis, Spermatorrhea, Mercureal Complaints, Gleet, Stricture, Seminal Weakness, Impotency, Rheumatism, Fever and Ague, Skin Diseases, Scalding Emissions, and all diseases brought on by indulgence or accidents.

The Howard Institute is under the immediate charge of Dr. P. Howard who has become justly celebrated for his successful treatment of diseases of the above nature, without the use of Mercury in any form.

NOTICE.—The Doctor having been waited on by numerous friends and societies since his return from Mexico to resume lecturing, takes this occasion to state that though he appreciates the commendations thus tendered, it will be impossible for him to accept their invitations, as the new arrangement in the routine of the HOWARD INSTITUTE demands his constant attention, and not feeling willing to exact the treatment of the patients to other hands than his own, takes this occasion to respectfully decline all calls to lecture out of the City of San Francisco.

In re-opening this old and popular institute once more to

The Quincy Union.

WHETHER IT IS A SIN?

[What impudent questions people do ask edit. How the deuce should they know?]

When a lady gets stalled in a gutter
That runs in a populous street,
(Like a fly that is stranded in butter),
And has to uncover her feet!
As gently the calico life she,
And gives it her graceful sweep,
Is a "feller" to blame when he chances
To give to her ankles a peep?

Just to see if they're thick or thin,
Mr. Editor, is it a sin?

Or when a plump bosom is covered
With a delicate Honiton lace,
Whose whiteness, like full blooming lilies
Contrasts with the rouge on her face,
Like the artificial flowers in floor,
(If I may be allowed so to speak)
Should a "feller" be checked if he's curious
Within the mesh laces to peep?

Mr. Editor, is it a sin?

"DARN IT."—A female writer says:
"Nothing looks worse on a lady than
darned stockings."

Allow us to observe that stockings
that need darning, look worse than
darned ones.—[Exchange.]

Stockings look best, surely, without
any "darned" holes in them.—[Louis-
ville Courier.]

Gentlemen, you had better attend to
your knitting, and let the injury com-
plained of, heal itself.—[Washington
Star.]

Yes, or you may get worsted.—Boston
Post.

And if not worsted, you'll most likely
get the binks taken out of you.—[Nati-
onal Flag.]

The above perpetrations compose the
darnedest nonsense we have heard of.—
[Livingston County News.]

The foregoing are all the yarns on the
subject we have found unwielded.—[Mar-
ryland Patriot.]

Why don't they narrow and come to
the point.—[Pinery.]

Perhaps they fear they will get too
off, if they get too near the point.—
[Berlin Courier.]

Darn it, gentlemen, if the lady has a
hole in her stocking, can't she knit in a
piece?—[Plover Herald.]

Gentlemen, you had better drop a few
stitches and bring the whole (hole) to a
close.—[Independent Phoenix.]

Would like to know how the above
gents can speak so clearly on such a
darned subject. Did you ever attempt
to unravel a hole? Columbia ladies
look well when they wear stockings
ribbed, not darned.—[Columbia Spy.]

The whole of the above has been well
darned, but we'd like to know how the
last named editor gets his information.
Is he, himself, ribbed? If not, he has
certainly put his "darned" foot in it.—
[Cartridge Box.]

If he has put his "darned" foot in it,
the whole (hole) is not likely to close
soon.

WHAT GEN. SHERIDAN'S CAVALRY HAVE
DONE.—The first cavalry division of
Sheridan's army, from August 16th un-
til November 15th, 1864, captured and
destroyed rebel property, during the
campaign in the Shenandoah Valley, to
the amount of \$3,304,735, and the third
cavalry division's captures, etc., amount-
ed to \$1,550,000 in value. The former
took twenty-nine rebel guns, and the
latter fifty-one. Total amount of prop-
erty destroyed, the destruction of which
is a loss to the rebel army, without in-
cluding the value of articles specified as
captured but not destroyed, and turned
over for use, etc., is \$6,040,128.

GOLD IN CONNECTICUT.—Dr. Keith, the
well known mineralogist, and the owner
of a tract of land in Greenwich, connec-
ticut, has discovered upon it a gold vein
which he is at present engaged in min-
ing. One piece alone of the precious
metal was valued at over \$600. The
land in which this discovery was made
was formerly mined for copper ore, a
considerable quantity of which was at
one time dug out.

"AN" said Mrs. Rosebury, "I'm in
a great thing. I've often felt the need
of it. Why, would you believe it? I'm
now sixty years old, and only know the
names of three months in a year, and
them's spring, fall and autumn. I larnt
the names of them when I was a little
bit of a gal."

QUEER MODE OF TRAVELING.—A live
woman is on her way from Ryegate, Vt.,
to San Francisco in a close pine box,
about the size of a coffin. She has a
nervous affection of the brain, and this
mode of transportation was resorted to,
to protect her from the noise incident to
the journey. The box has a small aper-
ture to admit air, contains a bed, and
is muffled. On stopping for the night
she exchanges her box for a bed.

MRS. MATILDA HERON STOEPEL, the ac-
tress, arrived at San Francisco on the
last steamer. She comes to fulfil an en-
gagement of one hundred nights with
Maguire, for which she receives \$10,000.
—[Ex.]

THE TOLUENE COURIER.—This news-
paper has changed proprietors and been
removed to Sonoma from Columbia.
George L. Sharrett succeeds J. C. Du-
chow, who has been connected with the
Courier for a long time.

CLEAR LAKE has risen about three feet
in the last six weeks. By the way, a
brief description of this lake would not
be amiss. It is about forty-five miles in
length, and twenty miles wide. It is
surrounded on all sides by hills and
mountains, the tallest of which (Uncle
Sam) looms up to a height of 500
hundred feet above the lake, and stands a
gloomy sentinel over its calm, clear wa-
ters. It abounds in fish of the finest
quality. For beauty and picturesque-
ness of its scenery, Clear Lake is not
surpassed by any in the State.—[Clear
Lake Times.]

A PREDICTION.—The Bee thus predicts:
"Great events are fast culminating in
this part of the world in connection with
affairs in Mexico—events which will
effect not only our national honor, but
the integrity and safety of our Pacific
territory." We have among us numbers
of shrewd and unscrupulous enemies of
the nation. It therefore behooves Uni-
on men, and especially the Union press
of the State, to be on their guard, and
to do nothing to weaken our strength
and peril our safety; on the men and of-
ficers composing that branch we must
depend.

DUMBFOUNDED.—The legislative corre-
spondent of the Montana Post, speaking
of a law which was recently passed by
both houses of that Territory "prohibiting
certain games of chance, where it is as-
serted that the chances are all one way,"
concludes his remarks thus:

I am a carder, and a diocier also. I
have bucked at the tiger in San Francis-
co, and I have taken the real Bengal by
the mane in Sacramento. I am an A.
M. in the "seven damnable sciences," but
this Act is above my comprehension, and
its provisions are "past finding out."

MAKE ROOM FOR THE FLORENCE!!

IT MAKES FOUR DISTINCT STITCHES, FEELS
THE WORK, EITHER WAY, SEWS THIN
AND HEAVY GOODS WITHOUT
CHANGE OF TENSION,
AND SEW ON AT THE SAME TIME.

IT MAKES A
STITCH ALIKE ON
BOTH SIDES OF THE FABRIC.
HAS NO SPRINGS TO GET OUT OF
ORDER, AND IS THE MOST RAPID SEWER
IN THE WORLD. EVERY MACHINE WARRANTED

We, the undersigned, have each purchased a
FLORENCE SEWING MACHINE and have them
now in use. We have thoroughly tested them
on work of all grades—heavy, medium and light—and
our opinion is that the Florence is durable, will not
easily get out of order, is strong and simple in con-
struction, and its use is easily learned by the least
inexperienced.

It will do a greater range of work, with less
trouble and change, and we consider it altogether
better than any other Family Sewing Machine we
have ever seen.

PURE OLD BOURBON WHISKY.
WM. T. CUTTER'S
Pure Old Bourbon Whisky.
FOR MEDICAL AND FAMILY PURPOSES.
SO LONG USED.

IN THE ARMY HOSPITALS AND INFIRMA-
ries, and so favorably known throughout the
Atlantic States, is now offered for sale in this
market. The following testimonials from physicians
of the highest distinction have been received,
which are but very few of like character which
have come to us unsolicited:

Mr. Wm. T. Cutter, Jr., Louisville, Ky.—Dear
Sir: The great difficulty in procuring brandy
sufficiently pure for medicinal purposes, has induced
many of the physicians of this vicinity to adopt
Bourbon Whisky as a substitute, both in the hos-
pital and private practice, and since the latter has
come into such general use, we have reason to be-
lieve that a great deal of good has been done, and
that your residence in the vicinity of
the manufacture of Whisky in Kentucky, as well
as your skill as a "chemist," will enable you to
select a reliable article, and having full confidence
in your integrity, we are led to inquire whether
you will not aid us in having the market supplied,
through an agency, with the best quality of

PURE OLD BOURBON WHISKY.
For the use of the sick.

We are, very respectfully, sir, yours truly,
Valentine Mott, M. D., Willard Parker, M. D.,
Jo. C. Hutchinson, M. D., Austin Flint, M. D.,
C. L. Mitchell, M. D., F. H. Hamilton, M. D.,
Dewitt C. Enos, M. D., R. O. Doremus, M. D.,
E. N. Chayman, M. D., Prof. of Chemistry,
Jas. R. Weid, M. D., W. E. P. Baylis.

The above is for sale by
WM. T. CUTTER,
111 Sansome street, San Francisco, and
R. H. McDONALD & CO.,
San Francisco.
